OMNOVA North America Inc. is excited to share the 2024 edition of ***INSIGHTS***, our visual translation of emerging design trends paired with an intimate view of next-generation decorative surfaces. As part of SURTECO, a global leader in surfaces, we now have even greater access to innovative development capabilities, enabling us to bring new ideas to life, such as the new SPHERA super matte laminate featured in these collections. Rooted in research and curated in character, this annual publication highlights key color and finish trends. This edition includes three design narratives with 37 compelling laminate offerings.

Be inspired with ***INSIGHTS***.

Lead with Design. Lead with OMNOVA.

ASPIRE

/ə'spī(ə)r/

noun

to direct one's hopes or ambitions towards achieving something.

We all have the power to shape the environments we live in as we are driven by our hopes and aspirations - both big and small. We invite you to join us on a journey towards creating more sustainable, luxurious and authentic environments with our carefully curated collection of laminates that can not only elevate your spaces but also your lifestyles.

This edition of INSIGHTS sets the stage and gives you permission to curate your surroundings for what you aspire to experience in regards to your wellbeing, comfort and individuality. We hope you will be inspired and look forward to seeing how you bring these concepts to life.

LIVING
LIGHTLY

Find enduring wellness in simplicity

We are living in a time where we are encouraged to seek after our own wellness. Not just in one category, but complete internal and external wellness.

This theme is about living intentionally, purposefully, and thoughtful in our spaces and considering how this is helpful to our own wellbeing. It celebrates the concept of simplification and the beauty and lightness of minimalism. Living lightly encourages you not to fill your mind and environments with unnecessary clutter and things that draw your energy away. In keeping your world more simplified, less is truly less.

When you declutter your home, your head and your heart, you might be amazed by what flows into that space to enrich you, your life and your family.

restful tones

Exposure to light at night disrupts the natural sleep-wake cycle and can lead to health issues. Sleeping in complete darkness regulates melatonin production and reduces the risk of chronic diseases and depression, which leads to a longer and healthier life.

The faded stones in this collection have black and gray hues that are soft and non-reflecting. These are useful for grounding other elements in your space without being competitive to them.

QUIET
LUXURY

Infuse your world with a touch of opulence

Whether you're a connoisseur of the finer things in life or simply looking to elevate your daily experience, there's no denying the appeal of luxury. From high quality fabrics and exotic vacations to gourmet meals and moments of indulgence in our daily lives, luxury is within reach. Tranquility, style, and elevated living - these are the core values of QUIET LUXURY.

The stones, colors and woodgrains in this collection were inspired by botanical motifs and vibrant nature scapes that stimulate the senses, making you want to slow down and savor the moment.

Experts in happiness studies emphasize the value of small pleasures, such as human connection, laughing, nature and rest over big expensive purchases.

In this sanctuary space, try a time-honored breathing practice for stress reduction. Take a deep, calming breath. Inhale slowly for five seconds, hold it for a moment, and then exhale gently for another five. Each deep, deliberate breath alleviates the pressures of the outside world and releases tension.

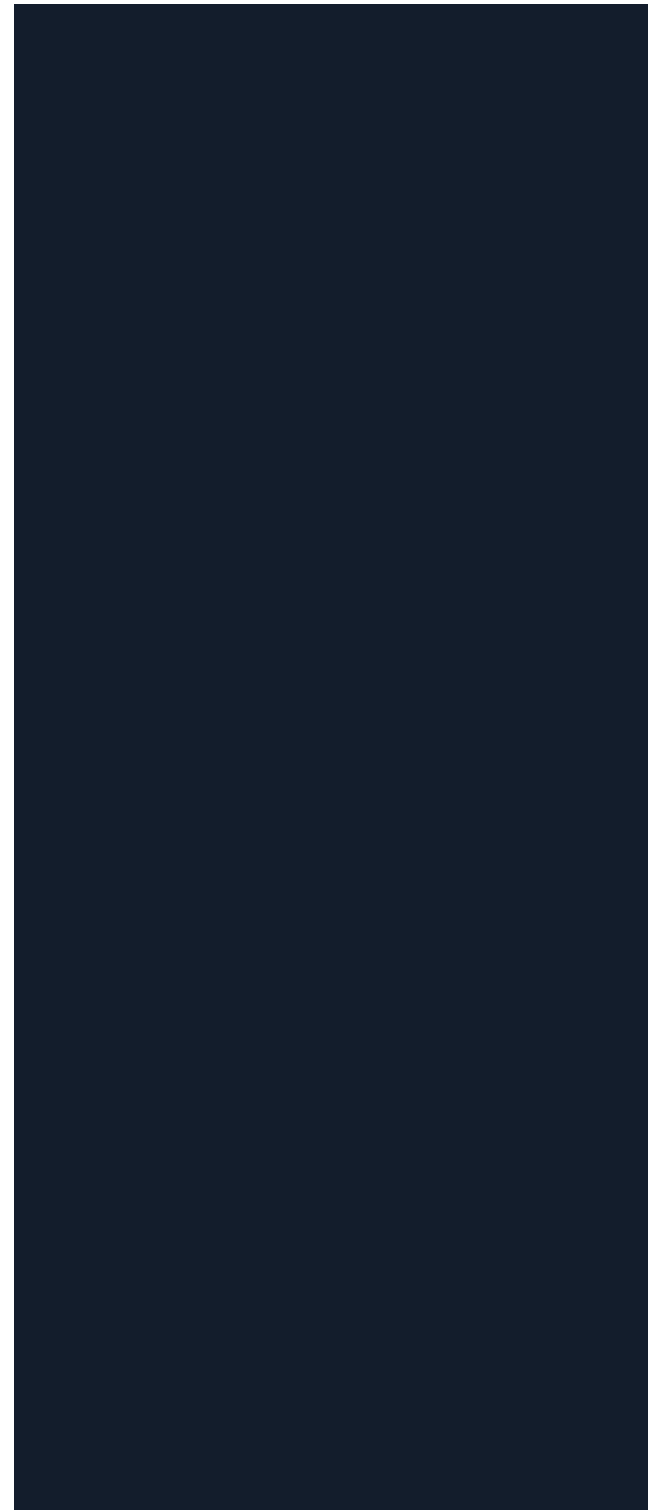

Vacations and escapes offer respite from the daily grind and refresh our spirits. They empower us to break free from routine, immerse ourselves in novel experiences, and rekindle our zest for life.

MIXOLOGY

Break the mold with bold combinations

We are often bombarded with fads and societal expectations that suggest how we should dress, behave, and even decorate our homes. But what if we told you that there is a way to break free from these constraints and express your individuality with confidence? This is where MIXOLOGY comes in - not the literal kind that involves a cocktail, but rather the art of mixing colors, textures, and materials to create spaces that are uniquely yours.

Embrace the freedom to try something different with the mix-and-matchable colors and patterns of MIXOLOGY.

Mixology is not about blending in, it's about being brave and standing out.

While gray may initially appear mundane and dull, in reality, it serves as an excellent backdrop, complementing and unifying other colors within a palette.

Life isn't about finding yourself, it's about creating yourself. Embrace your individual style by mixing elements that are unexpected but not overwhelming.

A close-up photograph of a person's hand holding a small, spiral-bound notebook. The notebook is open to a page with the words "Be yourself" written in a bold, black, cursive font. Below the text is a simple, thick black line that curves upwards at both ends, resembling a smiley face. The person holding the notebook is wearing a dark blue jacket and a grey scarf. The background is a blurred outdoor setting with green foliage and a mountain range in the distance.
