LAMINATES
LOOKBOOK
from SURTECO

I N S I G H T S

SURTECO North America is excited to share **INSIGHTS 2026 & forward**, our visual translation of emerging design trends paired with an intimate view of next-generation decorative surfaces. Rooted in research and curated in character, this trend lookbook highlights key color and finish trends.

This edition includes three design narratives with 39 compelling laminate offerings.

Be inspired with **INSIGHTS**.
Lead with Design. Lead with SURTECO.

INTENTION

in-’ten(t)-sh(ə)n: noun, what one intends to do or bring about. Trends in 2026 and forward are emerging and building with **INTENTION**. Color and styling is about finding that focus, while discovering a balance between modern and heritage, eclectic and grounded, and granting you the power to manifest exactly what you intended. Design is a language of color, pattern, touch and emotion. We share design stories and the adaption you will see moving forward in three themes defining the influences. We hope you find inspiration from these three narratives.

RICHLY DISTINCT: Blending innate virtue with familiar comfort.

MANIFEST BOLD: Embodying confidence, personality, and a sense of play.

CONSCIENTIOUS COMFORT: Delivering well-considered purpose and livability.

RICHLY DISTINCT

Grounded in something special

What do we all have in common? The desire to live a comfortable life that gets better and better each year. An appreciation and love for the innate elegance of elements that have meaning. This approach finds beauty in rich styles and materials that have withstood the test of time. It draws inspiration from items that feel uniquely special yet effortlessly approachable.

It leans into nostalgia—not as a gimmick, but as a way to use familiar ‘markers of time’ to ground us like a notch in the wood or timeless texture. The result is a style that feels both elevated and comfortable, offering a familiarity, emotional impact and stillness, that people are craving to counter a chaotic world.

SPHERA Cloud

546004

A fresh start for white moving forward. Cloud responds to a collective cultural desire for peace and clarity. It offers breathability. It is a cleansing calm against a world of chaos and disruption.

Bowery Coco

545663

The oak cathedral structures in this Bowery woodgrain evoke nostalgia, with a rustic appearance inspired by rural architecture and a family dining table passed down through generations. An emergence of modern collectors appreciate the treasure of an inherent origin.

Bowery Honey

545660

Caserta Dawn

547273

Classic white veined marbles are surging, valued for their timeless elegance and quintessential status as an architectural material of choice. Resonating with new generations seeking both style and substance.

Sorrento Ash

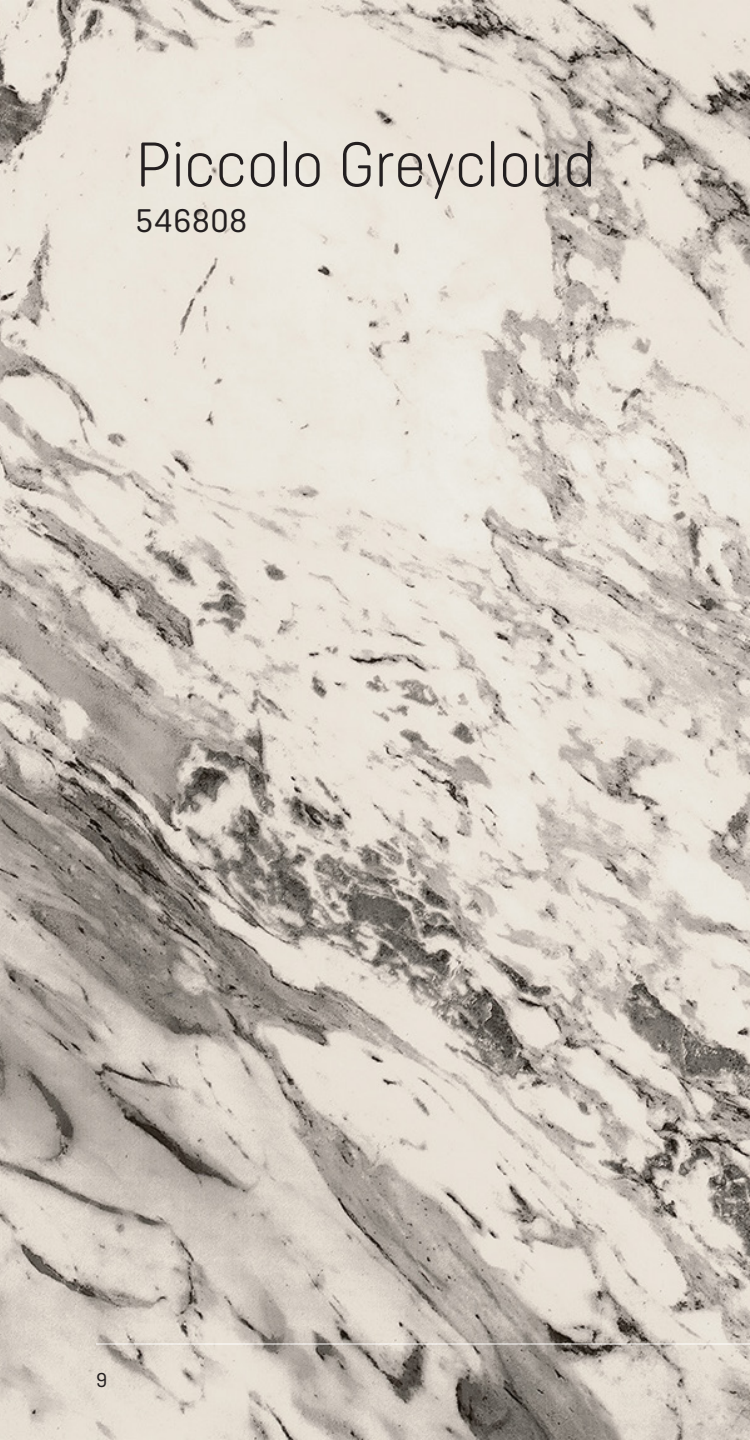

545303

Stone patterns with unique character maintain a curated restraint—striking enough to be a focal point yet refined enough to keep a space feeling composed and relaxed. Magnificence and artistry.

SPHERA Bone

546045

A close-up view of a laminate pattern named 'Piccolo Greycloud'. It features a complex, organic design with swirling, vein-like patterns in shades of light grey, off-white, and dark charcoal grey, creating a textured, stone-like appearance.

Piccolo Greycloud

546808

SPHERA Birch

545773

What can be luxury today is not ornate, but more approachable. Often the simpler an object looks, the more mastery was required to create it and greater emotion it offers to owning it.

Heather Bole

545770

Heather Mist

545771

Heather is a versatile tweed pattern. Unlike modern synthetic fabrics that wear out and are thrown away, tweed is incredibly durable. It is one of the few materials that actually looks better as it ages. In a world of “fast fashion”, tweed is timelessly tactile. It’s rough, irregular weave requires you to slow down and notice the craftsmanship.

SPHERA Succulent

546796

Continuing to trend for their unique ability to feel both specialized and natural, matte soft greens provide an earthy focal point without overwhelming a room. When paired with other natural tones, these shades evoke the quiet serenity of a woodland landscape, infusing the space with a deep, restorative calm.

SPHERA Cypress

545777

MANIFEST BOLD

Prioritize personality

Based in a movement toward a more enthusiastic use of color and pattern, we aim to bring joy back through confident, gratifying and high-impact design. This narrative encourages bold decisions: think color-drenched rooms, dramatic stone features, and deep tones like Umber or Fig that stir the soul.

Manifest Bold invites you to make a resounding statement that delivers personal happiness. It is a deeply intentional approach to ‘painting your world’—creating a space that doesn’t shy away from pattern, personality and uniqueness.

SPHERA Cadet

547185

Your home is a visual story of who you are, and a presentation of what you love. Giving permission to create spaces that feel expressive, layered and personal. An experience of beauty.

Askaja Cafe

547264

Woodgrains that are warm and bold
with a diverse blending of structure,
texture and colors.

Aziza Sterling Fluted

545869

The continued popularity of ribbing and fluting adds dimension and style.

SPHERA Satin Brass

546610

SPHERA Satin Bronze

546586

SPHERA Satin Steel

546585

Inspired by the interplay of mixed materials in modern design, these satin metallic finishes offer a fresh luster of metal. Perfect for retail, hospitality, and commercial spaces, their soft sheen adds a “pop” of interest.

SPHERA Umber

546799

Color drenching is a sophisticated technique that creates a seamless, cocooning effect by applying a single hue from floor to ceiling.

SPHERA Pacific

546776

Layers of color, texture and patterns are bold and deliberate. A cozy and intimate style, combining vintage styling and imagery of a bold fantastical wallcovering. An oasis and destination both traditional and playful.

SPHERA Fig

546778

Sorrento Evening

546807

Scale over scarcity. Instead of a small backsplash or solid color wall, the stone "climbs the walls" to create a jawdropping, immersive effect.

Bernini Cameo

547260

A canvas without boundaries.
Flowing large scale stones provide
an organic mural. Enveloping and
exceptional.

Gaja Pomona

546903

Gaja is a harmonious mix of oak striped arms alongside cut cathedrals - a blending of engineering and craft. The thoughtfully fashioned wood integrates seamlessly with expressive stones and high contrast color palettes.

Gaja Spice

546892

CONSCIENTIOUS COMFORT

Meticulous but effortless

This trend is about well-considered styling. Every material, color, finish, texture and function come together for an effortless environment. Quality and purpose bring a fluid style that can support multi-generations, multi-functions, multi-use but has a finesse. Design with clarity and restraint, but never at the expense of livability.

Helios Caramel

546871

Understated details. Meant to be adaptable and transformative, serving the needs of the mind, body, and spirit. Soft and flowing veins are layered together with modern straight grains.

Helios Silk

546902

SPHERA Laurel

546774

Continued inclusion of a biophilic presence with organic greens. Creating a look and color that is clean, bright, and sharp. It doesn't need to be flashy to get noticed; instead, it relies on high-quality finishes and a "less is more" attitude. It feels modern and bold, but it stays balanced and comfortable.

SPHERA White

547182

The understated detail of color and pattern offer flexible engagement, so the response to these designs can evolve or change with mood or environment. In this way, a lamp may serve its function while also be appreciated as sculpture. The color and style of black marble that is both elegant and effortless.

Caserta Twilight

547272

Montane Natural

547349

Soft, organic, bare grains. Similar to the trend of wearing sneakers or durable leather boots with a dress, this style shows that beauty and comfort can actually coexist with a little compromise.

Sorrento Parchment

545769

Soft, tonal veins rest on a quiet background, blending in rather than cutting across.

Straight grains that are vertical, fine and hushed, mimicking the look of raw wood. The overall effect feels soft and airy—fresh, and breathable.

By optimizing their spatial design and reducing overhead, new retail and dining concepts are creating leaner, more accessible environments built for long-term viability.

Dalis Natural

547062

Ventura Fossil

545940

Ventura Sahara

545941

Materials like Neolith, recycled metals, and linear woods create structures that are intrinsically strong but unassuming and unflashy. Texture without noise.

SPHERA Ash

547183

Noticeably changed greys have warmed, yet still offer that indisputable combination of aesthetic longevity and practical efficiency. Grey remains timeless.

SPHERA Flagstone

545797

SPHERA Woodsmoke

545774

INTENTION

From 2026 onward, design and styling are rooted in **INTENTION**. We are moving toward a deliberate curation of colors, textures, and environments that prioritize the personal. These material choices are expressive and grounded, offering both optimism and utility for the years ahead. Ultimately, **INTENTION** is about meeting the specific needs of the moment or the individual through these three narratives:

RICHLY DISTINCT: Blending innate virtue with familiar comfort.

MANIFEST BOLD: Embodying confidence, personality, and a sense of play.

CONSCIENTIOUS COMFORT: Delivering well-considered purpose and livability.
